leannalouie28\_ Have I shared these fun photos we took at KQED? It was so nice to talk to a journalist who actually had a dialogue with me. Unlike Joe Eskenazi who called me and talked over me and didn't even write any of my responses. Eskenazi totally wrote what he wanted and called his friends and members of the Weather Underground from Michigan, Berkeley, and other places to validate his points.

If you have never heard of Weather Underground, please Google search them. They are a domestic terrorists group... robbery, murder, bombings... all related to Chesa Boudin's extended family. San Francisco does not need these criminal kingpins in any official government office. Let's clean this City up!!
